

Trackman® for AGCO

Rubber Track

We are covering new ground with our expanded lineup for the AGCO Challenger® MT700 and MT800 models

NOW FEATURING

Our Patented Galvanized Cable.
An industry first!

Standard agricultural track and ultra aggressive agricultural track enhancements

- › Ten percent more cable makes a more durable track with a stronger carcass. With 5.3mm cables, our longer life tracks lead the marketplace.
- › Patented galvanized corrosion-resistant cable also increases the life of the carcass.
- › The stronger carcass foundation reduces internal track temperatures, improves tread lug performance and tread wear life.
- › By doubling the wire, tread wear and track performance improve dramatically.

Additional design features on our ultra aggressive agricultural track

- › Increased tread height and width puts more tread on the ground for longer tread wear life.
- › Tread design promotes lug strength and enables better clean out.
- › Thicker carcass provides a stronger foundation and optimizes the benefits of the new tread design.

Our warranty is on track with your needs

In accordance with the Continental ContiTech Trackman® Rubber Track warranty, the track is covered against material and/or workmanship defects. For complete warranty information, contact your Rubber Track dealer or visit our website at www.contitech.us/rubbertrack.
